

Harshit Goel

Java Developer

I completed my Bachelor of Engineering degree in 2022 . I got hired by a renowned Insurance company through the campus placement. I have been working with the company for almost a year now. I have learned the ins and outs of IT operations in my journey from a fresher to a Senior Executive. My qualifications and work experience make me a suitable candidate for the profile. I am looking to join your organization to explore new dimensions and for the further development of my skills.
